

Meeting Minutes

Date: 12-7-18

Attendees: Hailey Johnson, Wei Zhao, Jordan Cates, Eric Booth, Ujjwal Roy, Feng Li

Announcements:

- No meetings next week or over break
-

Meeting:

- Review of AudioStorageOptions.doc
 - Last option will be the best, but option 3 is close behind
 - Review of Database Table Structure
 - Using categories for fields will be better than using freeform
 - So things like Race/Nationality would be best as selectable, like a drop down.
 - Review of ER Database
 - Should change age portion of the database to include their age when the sample was recorded.
 - Maybe include it in the Audio table, so researchers can easily tell what the age of a subject was.
 - Developers should be able to do a write query. (Need to be able to put data into the table)
-

To Do for Next Meeting (date):

- Check Slack for pinned "To Do" message
